PROFESSIONAL SUMMARY

Software Tester with 2 years of testing experience, from November 2024 to the present, at Rounds and Peacock Concierge. Validates web applications, REST APIs, and database records, and uses a Laravel and MySQL development background to trace defects. Seeking QA Engineer roles, including remote and hybrid positions.

SKILLS

Manual testing: Functional testing, regression testing, and exploratory testing.

API: Postman, REST APIs, and JSON validation.

Database: SQL and MySQL, including checks that the stored data matches the API result.

Bug tracking: Jira.

Testing documentation: Test cases and test plans, practiced on the OrangeHRM team project.

Automation testing: Playwright and TypeScript for web UI automation, locators and assertions, cross-browser testing, and automated test case design.

Automation and technical: Selenium WebDriver, TestNG, and Allure Reports. Git, GitHub, and JavaScript. PHP and Laravel 7-10 from development work.

2 YEARS OF TESTING EXPERIENCE

Software Tester — **Feb 2025 - Present**

Peacock Concierge, Kuwait

- Develop and maintain Laravel backend services and REST APIs for web and mobile applications.
- Write SQL, manage relational data, and integrate third-party services such as SMS gateways.
- Test web and API modules, validate requests in Postman, check database integrity, and regression-test changes.
- Document defects, retest fixes, and check financial transaction and wallet calculations.

Software Tester — **Nov 2024 - Jan 2025**

Rounds, Saudi Arabia

- Functionally tested admin features, validated APIs, checked business rules, and ran smoke tests after production updates.

EARLIER DEVELOPMENT EXPERIENCE

Full-stack Developer — **Aug 2023 - Oct 2024**

Rounds, Saudi Arabia

- Built a Laravel 7 application with HTML, CSS, and JavaScript, including the admin dashboard at rounds.run/admin.
- Integrated third-party APIs and deployed with Hostinger and cPanel.

Full-stack Developer — **Jan 2022 - Mar 2023**

Money Master, Maadi, Cairo

- Built Laravel 9 APIs for user management and financial transactions, plus an admin panel with Laravel and Bootstrap.
- Deployed on Hostinger and cPanel.
- Checked financial transactions against API responses and database records while building those flows.

Backend Intern Feb 2022 - Mar 2022

Orange, Internship

- Built an API for the ODC Learning System and an admin panel with Laravel 8.
- Functionally tested the API and admin flows as part of that delivery.

QA PROJECT

OrangeHRM - Manual Testing and Test Automation 2025

Team contributor, DEPI, completed December 2025. Repository owner: Youssef Zaafan. Not my independent project.

Repository | Test cases | Bug report | Automation

- Contributed login page objects, login test cases, a TestNG data provider, dashboard page updates, Maven configuration, and documentation edits.
- Team files include a test-case report, a bug report, and Selenium automation for Login, Admin, PIM, My Info, and Leave.

EDUCATION

BSc Accounting, Very Good - Cairo University, Giza Sep 2014 - May 2018

CERTIFICATIONS AND TRAINING

- DEPI - Software Testing, completed December 2025 (June 2025 - December 2025).
- ITI - Full Stack Web Developer using PHP, completed February 2022.
- ITI - Software Development Fundamentals, completed August 2021.
- NTI - Web Development using PHP, MySQL, and Laravel, completed March 2021, score 98%.
- NTI - Web Design, completed November 2021, score 96%.
